REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1957, any article of the following named classes of published works deposited for copyright between January 1, 1953, and January 1, 1954, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and Pamphlets.

Contributions to periodicals.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific or technical character.

Photographs.

Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: \$1.00 per issue, \$2.00 per year.

Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entires and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided to represent the classes of material listed in section 5 of said Title 17. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to distinguish the classes, and the prices of the semiannual issues. The annual subscription for each part is twice the price of a single issue and the complete catalog, including all parts, may be secured on a subscription basis for \$20 a year.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant, as given in the application for registration, the copyright date, the copyright registration number, etc.) Available information in the records of the Copyright Office, including information relating to subsequent changes of ownership, can be obtained upon request and upon payment to the Register of Copyrights of the fee specified in section 215 of said Title 17 (\$3 for each hour of time consumed) for the conduct of a search of the records.

In the case of each registration listed, except for renewals, the deposit of a copy (or copies) of the work has been made in accordance with the provisions contained in sections 12, 13, or 215 of said Title 17, or, in the case of published three-dimensional works of art, there has been compliance with section 202.8 (b) (3) of the regulations of the Copyright Office published in the *Code of Federal Regulations*, 1949 edition, which provides for the deposit of identifying reproductions in lieu of the

work itself. Foreign works, two copies of which were deposited with a catalog card and application for registration under the waiver-of-fee provision in section 215 of Title 17 of the *United States Code*, are indicated by a zero immediately following the alphabetical symbol in the registration number.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog*, and for periods of one or more years. All order should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Register of Copyrights.

The Copyright Office welcomes inquiries, suggestions and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

Table of Organization

Each part listed in the table records all current registrations in the class or classes indicated by the alphabetical symbols given. In each case the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis. A zero immediately following the symbol (e. g., AF0, EF0) distinguishes a foreign work deposited under the waiver-of-fee provision. The symbol R does not represent a class designated by the copyright law, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. These are recorded in a separate section of those parts of the *Catalog* which cover the classes in which the works were originally

registered with the exception of music. Some parts also contain registrations made under other symbols if the subject matter or type of material is similar to that generally included in the part.

Selected Books in Art and Photography	167

INTRODUCTION

IN PARTS 7-11A are listed domestic and foreign works, registered in Classes G, H, I, J, and K, with the exception of commercial prints and labels registered in Class K under the symbol KK (which are listed in Part 11B). Included in a separate section are selected books in the fields of art and photography registered in Class A.

The works listed include original paintings, drawings, designs for works of art, three-dimensional works of art, charts, architectural and engineering plans and mechanical drawings, anatomical models and other plastic works, photographic prints, filmstrips, slide films, stereoscopic and other transparencies, published reproductions of existing works of art in the same or a different medium, and published prints and pictorial illustrations, including picture postcards, greeting cards, cartoons, and prints used for calendars, posters, etc. The selected books registered in Class A consist largely or primarily of illustrations, list or describe photographs or works of art (including those devoted to the works of individual artists or photographers), or are catalogs of exhibitions, etc.

Each work registered is described in a main entry which includes information pertinent to the copyright claim. Full information about each work is given under the name of the person or body principally responsible for the content of the work (author, artist, draftsman, photographer, etc.); under the name of the employer, in the case of a work made for hire; or under the title, in the case of filmstrips. References are made from the names of joint authors, claimants, and other essential names included in the main entries; from distinctive titles; and from the subjects of portraits, and scenes of geographic areas when applicable. In the case of filmstrips, the references cover, in addition, produc-

ing companies and releasing agents, and the names of the authors and titles of published literary works upon which the filmstrips are based or with which they are correlated. Cross-references from variant forms of names are also included. The list of selected art books contains no references.

Each main entry for works currently registered, other than filmstrips, includes, in addition to the name or title under which it is filed, the following items of information if available and applicable:

- 1) Title.
- 2) Series title, when useful as an aid in locating the work.
- 3) Names of contributors to the work.
- 4) Description of the pictorial content of the work.
- 5) Name of the publisher if this is different from the name under which the entry is filed and from the name of the claimant.
- 6) Brief description of the physical nature of the work.
- 7) Names of authors given in the application which do not appear elsewhere in the entry.
- 8) Name of the employer in the case of a work made for hire, if so named in the application, together with the names of the employees when given.
- 9) Information contained in the application which relates to the registration of an earlier version of the work.
- 10) Brief statement of the new matter on which copyright is claimed when this information is given in the application, if not already indicated in the entry, preceded by the abbreviation "NM."

- 11) Copyright symbol ©.
- 12) Name of the copyright claimant.
- 13) For published works, date of publication as given in the application; for unpublished works the date on which the last of all the items required to complete registration (i. e., copy, application, and fee) was received in the Copyright Office.
- 14) The phrase "photo dep.," or "photos dep.," when photographs of three-dimensional works of art are accepted in lieu of copies.
- 15) Registration number.

For published works, whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or the date of publication, the data from the application are given first, followed by the phrase "in notice" and the data given in the work: e. g., © John Doe; 10Jan55 (in notice: 1954); K6219.

For currently registered filmstrips, the main entry includes, in addition to the title under which it is filed and items 7-13 and 15, enumerated above, the following items if available and applicable:

- 1) Production statement.
- 2) Physical description, including number of frames, width of film, etc.
- 3) Series title.
- 4) Author and title of the published literary work upon which the film is based or with which it is correlated.

For renewal registrations, the main entry includes, in addition to the name or title under which it is filed, the following items of information if available and applicable:

- 1) Title.
- 2) Description of the pictorial content of the work.
- 3) Copyright symbol ©.
- 4) Date of original copyright.
- 5) Original registration number.
- 6) Name of renewal claimant followed by a statement in parentheses, usually in abbreviated form, giving the basis of the renewal claim as supplied by the claimant: e. g., "John Doe (NK)" indicates that renewal of copyright is claimed by John Doe as next of kin of the deceased author.

- 7) Date of receipt of the renewal application or fee, whichever is later.
- 8) Renewal registration number.

ABBREVIATIONS AND SYMBOLS

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.

(A)	—author
a.k.a.	—also known as
appl.	—application
©	—copyright symbol
(C)	—child or children of the deceased author
ca.	—circa
col.	—colored
comp.	—compiler
d.b.a.	—doing business as
(E)	—executor(s) of the author
ed.	—edited by, editor, editon
H.	—height
l.	—leaf, leaves
L.	—length
mm.	—millimeters
(NK)	—next of kin of the author who is not living, there being no will
NM	—new matter
p.	—page, pages
(PCB)	—proprietor of a work copyrighted by a corporate body otherwise than as assignee or licensee of the author
(PCW)	—proprietor of the composite work
(PPW)	—proprietor of the posthumous work
pseud.	—pseudonym
pub.	—published, publishing
(PWH)	—proprietor of copyright in a work made for hire
rev.	—revised, revised by, revision
t.a.	—trading as
tr.	—translator
v., vol.	—volume, volumes
(W)	—widow
(Wr)	—widower of the author

COPYRIGHT REGISTRATIONS FOR WORKS OF ART, REPRODUCTIONS OF WORKS OF ART, SCIENTIFIC AND TECHNICAL DRAWINGS, PHOTOGRAPHIC WORKS, PRINTS, AND PICTORIAL ILLUSTRATIONS

January-June 1955

Class G—Published works of art and designs for works of art	761
Unpublished works of art and de- signs for works of art	901

Class J—Published photographs	410
Unpublished photographs	165
Class K—Prints and pictorial illustrations . .	2, 242
Total	5, 758

Renewals:	
Class G	46
Class I	0
Class J	3
Class K	87

Total 136

The above figures represent the number of registrations for works of art, reproductions of works of art, scientific and technical drawings, photographic works, prints and pictorial illustrations for January-June 1955, but do not necessarily represent the exact number of entries in this issue of the *Catalog of Copyright Entries*. Registration figures for other classes of material may be found in the respective parts.

WORKS OF ART, REPRODUCTIONS, SCIENTIFIC AND TECHNICAL DRAWINGS, PHOTOGRAPHIC WORKS, PRINTS

CURRENT REGISTRATIONS

An alphabetical list of art works, scientific and technical drawings, photographic works, and prints and pictorial works registered during the period covered by this issue, arranged under author (artist, draftsman, photographer, etc., or employer in case of a work made for hire) or, in the case of filmstrips, under title. Cross-references from names of copyright claimants, joint authors, distinctive titles, subjects of portraits, cities, geographic areas and other scenes represented in the entries, when applicable, are interfiled with main entries.

REMOVAL OF DEPOSITS FROM COPYRIGHT OFFICE

NOTICE is given to authors, copyright proprietors and other lawful claimants that they may claim and remove before January 1, 1958, any article of the following named classes of published works deposited for copyright between January 1, 1954, and January 1, 1955, not reserved or disposed of as provided by sections 213 and 214 of Title 17 of the United States Code and still remaining in the files of the Copyright Office at the time of the request for their removal. The classes of published works covered by this notice are:

Books and Pamphlets.

Contributions to periodicals.

Works of art; models or designs for works of art.

Reproductions of a work of art.

Drawings or plastic works of a scientific or technical character.

Photographs.

Prints and pictorial illustrations excluding prints or labels used for articles of merchandise.

Other published works and all unpublished works are excluded from this notice.

The request for the removal of any copyright deposit should be signed by the person entitled thereto or his duly authorized agent. Such request should identify the work by stating the title, author, copyright proprietor, registration number and year of deposit, and should be addressed to the Copyright Office, Library of Congress, Washington 25, D. C.

L. C. card, 6-35347

This number identifies the Library of Congress printed card for the complete series of the Catalog of Copyright Entries.

For sale by the Register of Copyrights, Library of Congress, Washington 25, D. C. Price for this part: \$1.00 per issue, \$2.00 per year.

Preface

The CATALOG OF COPYRIGHT ENTRIES is published by authority of sections 210 and 211 of Title 17 of the *United States Code*. Section 210 provides in part: "The current catalog of copyright entires and the index volumes herein provided for shall be admitted in any court as prima facie evidence of the facts stated therein as regards any copyright registration."

The *Catalog* is subdivided to represent the classes of material listed in section 5 of said Title 17. The table at the end of this preface shows the organization of the *Catalog*, the symbols used with the registration numbers to distinguish the classes, and the prices of the semiannual issues. The annual subscription for each part is twice the price of a single issue and the complete catalog, including all parts, may be secured on a subscription basis for \$20 a year.

The record of each copyright registration listed in the *Catalog* includes a description of the work copyrighted and data relating to the copyright claim (the name of the copyright claimant, as given in the application for registration, the copyright date, the copyright registration number, etc.) Available information in the records of the Copyright Office, including information relating to subsequent changes of ownership, can be obtained upon request and upon payment to the Register of Copyrights of the fee specified in section 215 of said Title 17 (\$3 for each hour of time consumed) for the conduct of a search of the records.

In the case of each registration listed, except for renewals, the deposit of a copy (or copies) of the work has been made in accordance with the provisions contained in sections 12, 13, or 215 of said Title 17, or, in the case of published three-dimensional works of art, there has been compliance with section 202.8 (b) (3) of the regulations of the Copyright Office published in the *Code of Federal Regulations*, 1949 edition, which provides for the deposit of identifying reproductions in lieu of the

work itself. Foreign works, two copies of which were deposited with a catalog card and application for registration under the waiver-of-fee provision in section 215 of Title 17 of the *United States Code*, are indicated by a zero immediately following the alphabetical symbol in the registration number.

For a more complete description of the contents of this issue of the *Catalog* see p. vii.

Orders, payable in advance, for all parts of the *Catalog of Copyright Entries* should be sent directly to the Register of Copyrights, Library of Congress, Washington 25, D. C. Orders may be placed for individual issues, as subscriptions for one or more parts, or for the complete *Catalog*, and for periods of one or more years. All orders should state clearly the title and the inclusive dates of the part wanted. Checks or money orders should be made payable to the Register of Copyrights.

The Copyright Office welcomes inquiries, suggestions and comments on the content and organization of the *Catalog*. Such communications should be addressed to the Chief of the Cataloging Division, Copyright Office, Library of Congress, Washington 25, D. C.

Table of Organization

Each part listed in the table records all current registrations in the class or classes indicated by the alphabetical symbols given. In each case the first letter of the symbol is that of the class under which registration is made; the second, if any, is a designation added by the Copyright Office for purposes of statistical analysis. A zero immediately following the symbol (e. g., AF0, EF0) distinguishes a foreign work deposited under the waiver-of-fee provision. The symbol R does not represent a class designated by the copyright law, but has been adopted by the Copyright Office to distinguish renewal copyright registrations. These are recorded in a separate section of those parts of the *Catalog* which cover the classes in which the works were originally

registered with the exception of music. Some parts also contain registrations made under other symbols if the subject matter or type of material is similar to that generally included in the part.

Selected Books in Art and Photography	305

INTRODUCTION

IN PARTS 7-11A are listed domestic and foreign works, registered in Classes G, H, I, J, and K, with the exception of commercial prints and labels registered in Class K under the symbol KK (which are listed in Part 11B). Included in a separate section are selected books in the fields of art and photography registered in Class A.

The works listed include original paintings, drawings, designs for works of art, three-dimensional works of art, charts, architectural and engineering plans and mechanical drawings, anatomical models and other plastic works, photographic prints, filmstrips, slide films, stereoscopic and other transparencies, published reproductions of existing works of art in the same or a different medium, and published prints and pictorial illustrations, including picture postcards, greeting cards, cartoons, and prints used for calendars, posters, etc. The selected books registered in Class A consist largely or primarily of illustrations, list or describe photographs or works of art (including those devoted to the works of individual artists or photographers), or are catalogs of exhibitions, etc.

Each work registered is described in a main entry which includes information pertinent to the copyright claim. Full information about each work is given under the name of the person or body principally responsible for the content of the work (author, artist, draftsman, photographer, etc.); under the name of the employer, in the case of a work made for hire; or under the title, in the case of filmstrips. References are made from the names of joint authors, claimants, and other essential names included in the main entries; from distinctive titles; and from the subjects of portraits, and scenes of geographic areas when applicable. In the case of filmstrips, the references cover, in addition, produc-

ing companies and releasing agents, and the names of the authors and titles of published literary works upon which the filmstrips are based or with which they are correlated. Cross-references from variant forms of names are also included. The list of selected art books contains no references.

Each main entry for works currently registered, other than filmstrips, includes, in addition to the name or title under which it is filed, the following items of information if available and applicable:

- 1) Title.
- 2) Series title, when useful as an aid in locating the work.
- 3) Names of contributors to the work.
- 4) Description of the pictorial content of the work.
- 5) Name of the publisher if this is different from the name under which the entry is filed and from the name of the claimant.
- 6) Brief description of the physical nature of the work.
- 7) Names of authors given in the application which do not appear elsewhere in the entry.
- 8) Name of the employer in the case of a work made for hire, if so named in the application, together with the names of the employees when given.
- 9) Information contained in the application which relates to the registration of an earlier version of the work.
- 10) Brief statement of the new matter on which copyright is claimed when this information is given in the application, if not already indicated in the entry, preceded by the abbreviation "NM."

- 11) Copyright symbol ©.
- 12) Name of the copyright claimant.
- 13) For published works, date of publication as given in the application; for unpublished works the date on which the last of all the items required to complete registration (i. e., copy, application, and fee) was received in the Copyright Office.
- 14) The phrase "photo dep.," or "photos dep.," when photographs of three-dimensional works of art are accepted in lieu of copies.
- 15) Registration number.

For published works, whenever it is necessary to indicate a variation between the information given in the application and in the copy of the work with respect to the claimant's name or the date of publication, the data from the application are given first, followed by the phrase "in notice" and the data given in the work: e. g., © John Doe; 10Jan55 (in notice: 1954); K6219.

For currently registered filmstrips, the main entry includes, in addition to the title under which it is filed and items 7-13 and 15, enumerated above, the following items if available and applicable

- 1) Production statement.
- 2) Physical description, including number of frames, width of film, etc.
- 3) Series title.
- 4) Author and title of the published literary work upon which the film is based or with which it is correlated.

For renewal registrations, the main entry includes, in addition to the name or title under which it is filed, the following items of information if available and applicable:

- 1) Title.
- 2) Description of the pictorial content of the work.
- 3) Copyright symbol ©.
- 4) Date of original copyright.
- 5) Original registration number.
- 6) Name of renewal claimant followed by a statement in parentheses, usually in abbreviated form, giving the basis of the renewal claim as supplied by the claimant e. g., "John Doe (NK)" indicates that renewal of copyright is claimed by John Doe as next of kin of the deceased author.

- 7) Date of receipt of the renewal application or fee whichever is later.
- 8) Renewal registration number.

ABBREVIATIONS AND SYMBOLS

The following list includes abbreviations and symbols used in this catalog with specific copyright or bibliographic meanings. Definitions are not given for abbreviations in common use.

(A)	—author
a.k.a.	—also known as
appl.	—application
©	—Copyright symbol
(C)	—child or children of the deceased author
ca.	—circa
col.	—colored
comp.	—compiler
d.b.a.	—doing business as
(E)	—executor(s) of the author
ed.	—edited by, editor, edition
H.	—height
l.	—leaf, leaves
L.	—length
mm.	—millimeters
(NK)	—next of kin of the author who is not living, there being no will
NM	—new matter
p.	—page, pages
(PCB)	—proprietor of a work copyrighted by a corporate body otherwise than as assignee or licensee of the author
(PCW)	—proprietor of the composite work
(PPW)	—proprietor of the posthumous work
pseud.	—pseudonym
pub.	—published, publishing
(PWH)	—proprietor of copyright in a work made for hire
rev.	—revised, revised by, revision
t.a.	—trading as
tr.	—translator
v., vol.	—volume, volumes
(W)	—widow
(Wr)	—widower of the author

COPYRIGHT REGISTRATIONS FOR WORKS OF ART, REPRODUCTIONS OF WORKS OF ART, SCIENTIFIC AND TECHNICAL DRAWINGS, PHOTOGRAPHIC WORKS, PRINTS, AND PICTORIAL ILLUSTRATIONS

July–December 1955
